

# Akron Children's Hospital's dermatology program is now offering e-visits!

For established dermatology patients experiencing rashes, an e-visit is an easy, secure way to get medical advice from an Akron Children's physician without leaving your home.

## Here's how e-visits work:

- 1** Go to [mychart.akronchildrens.org](http://mychart.akronchildrens.org).
- 2** Log in to MyChart by entering your username and password.
- 3** Select the patient from the drop down menu at the top right of the page.
- 4** Click the menu option at the top left of the page, select "Ask a Question" and then "Symptom-Specific E-Visit."
- 5** Answer questions about your symptoms and submit photos of the rash (this may take about 10 minutes).
- 6** An Akron Children's Hospital physician will review and respond to your request with a diagnosis, any instructions and a prescription (if needed) within 1-3 business days.

Please note that your financial responsibility for an e-visit may vary based on your insurance coverage and is a covered service by Medicaid.
