

# Our top priority is health and safety

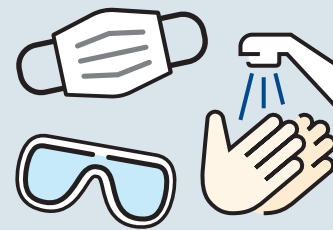

At Akron Children's Hospital, our top priority is the health and safety of our patients, their families and our staff. As we continue to navigate the COVID-19 situation, we've taken the following steps to make our spaces as safe as possible:

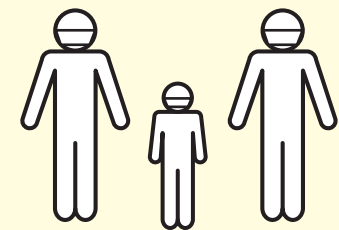

Practicing social distancing

Limiting entry points

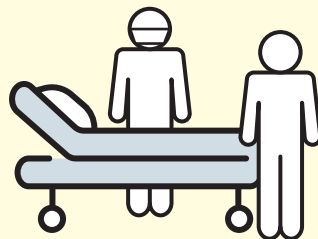

Continually retraining  
caregivers on PPE and  
hand hygiene

Asking all visitors to wear  
a face mask and  
supplying one if needed

Installing additional hand  
sanitizer dispensers

Decreasing the  
number of visitors

Giving surgical masks to all  
employees working on-site

Cleaning common areas  
more frequently
